DAILY COURIER.

FRIDAY, ..... SEPTEMBER 24, 1858. Reading Matter on every page.

The Journal on Gov. Helm's Branch Road. The Louisville Journal of yesterday contained a long editorial in defense of Gov. Helm and his Memphis branch railroad. The editor, like the Governor, tenders a number of side issues and subterfuges, which will avail him nothing. We desire no quarrel with Gov. Helm's directory. There is nothing from which we could infer that they desire a controversy with us, unless the use of their names by the Journal and the Governor, as if to contrast their ability, their taxes and their position with our own, could be construed into such a desire. We shall not, however, so construe this use of their names. We know that these gentlemen have much business of their own to attend to, and that they necessarily and naturally intrust the principal management of the L. & N. R. R. to the president whom for weal or woe they put in power. We shall, therefore, hold Gov. Helm responsible for what we cannot swerve from this position unless his directory choose to drive us from it. Nor are we going to be led off from the main is-

sue to discuss who are and who are not Shylocks. We have already said that this epithet was not applied by us to those generous merchants and citizens who took the Gov.'s bonds at seventy-five cents on the dollar to keep his road affoat. They did perfectly right in this, yea they did nobly .-They came forward like true friends of Louisville and put themselves to no little inconvenience to assist a work which will be the pride of our city when completed. Of course they were not Shylocks, for Shylocks seek their bargains and drive them through, while these bond buyers were sought by the bargain and driven through. We shall discuss the question of Shylocks, and fix per cent. interest at this rate, for his Lebanon the name where it belongs, when we get through with the main question at issue; when, also, we shall notice other side issues which we cannot

now stop to discuss. The Journal states the leading points of the ssue in the following words:

The Memphis branch road enterprise is assailed. not because any one pretends to say it is not desirable, not because it is not important to all the business interests of Louisville, not because of iny pretence that its value is overestimated, but imply upon the idle conjecture, the groundless urmise, that the work cannot be done within the timates of the engineer, and that the short onds which the city is to issue when the is completely ready for the iron, and not till then, will be sold at a sacrifice.

Now we say on the contrary, that we have ssailed this particular branch road because it is not desirable, because it is not all-important to the business interests of Louisville, and because its value has been overestimated. We say, moreover, that our estimate of its cost is no more an idle surmise than Gov. Helm's, and that the sacrifice which the bonds of the city will certainly undergo, if issued, is not one of our objections, because, as we have said before and now repeat, if this branch road commended itself to us as being to the interest of Louisville, we should vote the money in-

stead of the bonds. This particular branch road is not desirable to ur city, because it is too roundabout and uncertain and impractible a way of getting to Memphis. If Gov. Helm's branch should be made to the State line, we should there take the Memphis-Clarksville and Louisville road a distance of 55 miles to the Tennessee river, if, indeed, we did not have to take another road for the last 25 miles of this road, in the direction of the Tennessee river. But supposing the M., C. & L. road takes us to Tennessee river, we should then have to go from thence to Paris upon a road not now incorporated, or upon some one which would bend out of its way to fill up a gap of 18 miles. And when Memphis and Ohio road 130 miles to Memphis. In going a distance of 241 miles from Bowling Green, we should therefore have to zigzag over at least three, and perhaps five, distinct, if not

antagonistic, railroads. Nor is there any certainty that the route would take us a foot beyond Clarksville. The Memphis, Clarksville and Louisville road, which is to take us beyond this point, has made no move that indicates any particular desire or capacity to so ap proach the Tennessee river. It would not be paricularly desirable for Clarksville to make such a nove. If she can get the tobacco and other produce of Warren, Logan, Simpson, Todd, and other counties, by inducing Louisville to build her a railroad for that purpose, she will not be likely o open a way for this trade to pass through Mem-

And the whole thing seems, at present, impracicable. The distance from Bowling Green to Memphis is 241 miles, and is, therefore, 56 miles greater than from Louisville to Nashville. To nake the entire road it would cost \$8,425,000, according to the average cost of railroads in the United States. But let us take their own estimates as far as we can, and see what portion of the means is provided to do this work before we contribute our \$300,000.

Starting at the Memphis end, we are told by dov. Helm that the Memphis and Ohio road is unning 57 miles, to Brownsville; that it is graded and the iron provided for 23 miles more, and that the contract is made for grading the rest of the 50 miles to Paris. This looks flattering, but when we state that the means of this company, consisting of \$1,017,425 capital stock, and \$1,400,000 expected State aid, amounting to \$2,417,425, falls short of their own estimate fof the cost of their road, in the good round sum of \$745,150, it does not look so flattering. Here, then, is \$745,150 to raise for this part of Gov. Helm's through road to

Next we come to a gap between Paris and the Tennessee river, for which there is no organized company. The distance is 18 miles, and we will assume its cost to be \$30,000 per mile. Here, then,

s \$540,000 more to raise. Next, we come to the Memphis, Clarksville and Louisville road, extending from the Tennessee river to the State line, a distance of fifty-five miles. The means of this company is \$585,000 stock and \$980,000 State aid, making a total of \$1,565,000. We saw an estimated cost of it which was \$877, 000, which if true would enable the stockholders to make the road with State aid without paying any money themselves. But as we suppose this was a Helm-Olmstead-McLeod estimate, and as we know that the bridging of extensive rivers and a grade of sixty-eight feet to the mile will cost some money, we will venture to say this road will cost the average per mile of the other roads

sell from one to two millions of her already issued bonds. The friends of this Memphis branch

certainly over estimate its importance, when they lo that which must inevitably injure the main trunk. They ought to have kept Gov. Helm silent until the road which is our pride was a fact instead of a conjecture. Nor is our estimate of the cost of this branch idle rumor. Gov. Helm first said it would cost \$800,000, then through Olmstead rose to \$980,000, and finally by McLeod's help to get down, got up

nearer to a million. We said in the first place that it would cost \$1,440,000, and we still say so. Those who live to see it finished will say we are right. McLeod acknowledges that Olmstead's estimate was that of an approximate location in nany instances, and Gov. Helm has therefore no reliable data on which to base its cost. We prefer the common sense view, especially when assisted by some knowledge of the country, of judging of this by other roads; and as the average cost of all the railroads in the Union would make this one cost \$1,440,000, we fixed it at that sum. We will not change our figures until we are convinced that we are wrong. We are not practical engineers ourselves, but we know enough about approve in the conduct of this road, and shall not the business to know that it won't do to estimate the cost of railroads by approximation, and call the result an actual instrumental test, which is not to be questioned.

Perceut and Discount. We received yesterday, through the postoffice, the following note:

LOUISVILLE, Sept. 99d, 1858 Editor Courier—Sir: The answer to the ques-tion in to-day's Courier, in regard to the interest per annum on the Lebanon branch bonds, is 17%) seventeen and two-thirds per centum pennum.

which will yield the purchaser 17% per cent. per annum on his money, what he considers much discount? And as he sold bonds bearing seven bonds he now asks the city to give him for his Memphis branch 9

U. S. GRAND LODGE OF ODD FELLOWS .- The U. Grand Lodge I. O. O. F. assembled in Baltinore on Monday. Tweniy-four grand lodges, and ourteen grand encampments were represented. The order in Kentucky is represented in a flourishing condition.

The report of the Grand Sire is a lengthy docu ment, giving the most full and interesting particulars of the order throughout the jurisdiction of

The receipts of the fiscal year closing on the 1st of September, from the Grand Lodges were \$9, 108 38—making a total of \$10,910 78. The whole receipts up to the close of the year from all sources were \$12,198 79, and there is still due the sum of \$5,373 08, of which it is estimated \$4,500 will be paid during the session, and which from the estimated \$4.500 will be paid during the session. mates will leave a deficit of \$1,201 21. The whole amount appropriated at the last session was \$18, 862 75, and the actual amount expended \$16,318 30 - leaving an excess of appropriation over actual expense of \$2,544 45. He says there will, ss, be a deficiency, arising out of the hat the arrears of the two for the most part outstanding - the amount of this deficit will depend upon the an ount of receipts after making up of this re port and before the close of the session, which will only have been ascertained by the report of the committee on finance; but whatever it may be, its entire absorption should be provided for without recourse to temporary shifts, which only serve to defer and augment a debt which should be promtly discharged. It may be said in relaon to the fiscal operations of the year, that the evenue in view of the momentary difficulties which have everywhere, and in every channel of business prevailed, has been much greater than might have been expected, and it may safely be inferred that upon a return of the business proserity of the country, the finances of the Gran

"What do you mean," said the ever. You should have seen his eyes flash and the smile of triumph break over his face as he said, "Mother never told me a lie, sir, but you've been so long on the way."— What a lesson of trust, and how this incident shows the effect of never deceiving children with idle tales. As the poor mother expected when she told her son "God would take care of him," he did by touching the heart of this benevolent man with compassion and love to the little stranger

CRIM. CON .- The citizens of the Sixth Ward, in the neighborhood of Roberts Chapel, were thrown into considerable excitement this morning at the announcement that Mr. Wm. B. Green had administed to the Rev. J. B. Admire a sound caning.
Mr. Admire is the pastor of Roberts Chapel congregation, and it is rumored that he has been too attentive to some of the sisters of his flock.
A report of this kind having come to the ears of
Mr. Green with regard to one of his daughters, he ordered Mr. A. to cease his attentions. This the latter did, to some extent, in public, but, it is said, met the girl clandestinely. Last night Mr. G. missed his daughter from home. He searched for her through the neighborhood but could not find her. She returned home about half past 8 o'clock, and upon heing closely questioned confeced that and upon being closely questioned, confessed that she had been at the house of Mr. Admire, whose family are absent from the city. This morning Mr. Green armed himself with a club, and meeting injured him had he not fled.

Mr. Admire states that the whole story of there being any criminality in his intentions is false; that the young ladies regard him as a father, and that the visit of Miss Green last night was for the purpose of getting a certificate from him.—This is a sad affair, and the general opinion is against Mr. Admire.—New Albany Ledger, yester day.

THE NELSON COUNTY FAIR.

[Correspondence of the Louisville Courier.] BARDSTOWN, Sept. 21, 1858.

Editors Louisville Courier:—Notwithstanding the near approach of the autumnal equinox, the sun arose beautifully on this the first day of the exhibition of the Nelson County Agricultural and Mechanical Association. Everything is propitious for the most successful meeting that has ever occurred in the State. There are in attendance large number of wealthy stock raisers, from Washington, Marion, Mercer, Boyle, Jefferson, and other counties, with crowds of the finest stock that the eye ever beheld. The brightest and most beautiful of Kentucky's fair daughters race the exercises with their presence, and cheer

ne contestants with their smiles.

According to custom this the first day is deoted to ladies' manufactures, etc., and a most magnificent display is made from the most ex quisite article of needle work to the coarse articl f negro jeans. Domestic wines, that would do redit to the most experienced vintner, are in great rofusion. The most delicious fruits and melons re in display. In fact, we have the largest display everything that it has ever been my good for one to behold. The good housewives of old Nel tune to behold. The good housewives of old Nel-son seem to think that this is the last and only chance that they will ever have to compete, one with another, for the palm of success; but I am requested by L. McKay, Jr., the gentlemanly treasurer of the association, to inform them, brough the columns of the Courier, that the will have another chance next fall. There is no association more worthy of patronage than this Their premiums compare favorably own Southwestern Agricultural and Mechanical Association—their grounds, situated just two miles from town, and among the most beautiful in the State—their ampitheater large, commodious and roomy—their stables, for the accommodation f stock, numerous and convenient—and last, but not least, their officers are polite, gentlemanly, and accommodating, especially to the press gang. Indeed, so soon as it was known that it was my intention to report for the Courier every atten-tion was paid me that could be desired. O Now, then, we want Gov. Helm to inform us, if it is not much discount to sell bonds at a figure

A THOUSAND DOLLAR SET OF TABLE CUTLERY .-We were shown yesterday, by our old friend, Robert Usher, the most magnificent set of table cutlery that was ever manufactured. ### OUR SUBMARINE CABLE

uccessful Submersion under the Ohio—Difficulties in the Overland Route—Injunctions by Port Fulton, etc. We folks "around the falls" have had our submarine cable experiments and difficulties. We have not achieved a victory over the stormy Atlantic, and can indulge in no ode upon "mare victum," but we have made the beautiful river yield to the enterprise of our telegraphers. Just one week ago an empty coal flat left the Kentucky shore with the cable, and, after a passage in which no particular incident occured, reached the sandy beach of Hoosierdom, the wire having been dropped down among the pieces of the Ohio. There it rests, and has not yet been rendered serviceable, in consequence of the difficulties which always attend all great enterprises. Continuity is established-the electric current passes freely,

ut there are obstructions at the shore ends. The people of Port Fulton, Indiana, have obained an injunction against erecting the tele graph pole in that incorporation, and we understand that the proprietor of the land on this side the river objects to the line being run over his premises, so that connections cannot be established. These old fogies are either opposed to the spread of intelligence or fearful of the telegraph posts being conductors of lightning. What will be done we cannot state. At present all the telweeks ago. The present cable is a portion of the one that was lost in the Bay of Fundy, in 1855, by on the Missouri and Mississippi rivers; also to all Messrs, C. W. Field & Co., and afterwards recovered.

### Out Door Sports.

MATCH BETWEEN THE LOUISVILLE AND ECLIPSE BASE BALL CLUBS-THE LOUISVILLE ADMITS A DE-FEAT.—We have repeatedly noticed with pleasure the increasing interest being manifested by our young men in manly exercises. It augurs well for an elevated and improved status in our future population. Kentuckians, famous once for their remarkable physiques, have been gradually dwindling in size, appearance and activity, until it seemed as if we were approaching a Lilliputian generation. This revival of athletic sports, espe cially among the youth of our cities, is worthy of the highest commendation. It will change the pallor of the cheek to the rosate hue of healthwill give muscle to the limbs-strength and energy to the whole frame, and have a happy tendency upon the intellect. None knew better the games than the old Greeks and Romans, and so long as they cultivated these exercises in the open this city, took the first premium at the Eminence | air, they raised men, not puny and effeminate

Yesterday afternoon the match game between the Louisville and Eclipse Club took place on Ce dar Hill, a beautiful campus, situated beyond Kentucky street, and near the corporation limits There was a large attendance of spectators, in cluding over one hundred beautiful ladies, who lent the charm of their presence to the exhiliarat-

ing scene. The members of both clubs appeared in their ndsome uniforms-the Eclipse with jaunty, check caps, blue jackets and checked pantsthe Louisville wearing white jackets, blue pants, and caps. The game was not concluded, the shades of evening approaching before the result was determined. The Louisville played eight innings—the Eclipse seven and a Velvets; Ginghams, etc., which they are prepared part of another. The captains then agreed to close the game, the Louisville members admitting their defeat.

It may be well to observe that the established custom is to play three games, and though the to win another before they can be pronounced victors.

Without desiring to be invidious, we may speak in terms of praise of Mr. Hewitt, captain, Robbins, as catcher, and Rutter as pitcher of the Louisville Club. Similar praise is deservedly due to Mr. Charles U. Shreve, catcher, and Mr. Higgins, pitcher, of the Eclipse. The latter was remarkaable for the swiftness of his balls. But all the young gentlemen played with great spirit.

# The Lost Aeronaut.

We bave already published an account of Mr. Thurston, the aeronaut, at Knight's Station, Michgan, and the rumored descent of the balloon in the marshes, near Lake St. Clair. The followin g details, from the Detroit papers, though they do not solve the mystery, possess a melancholy in-

The report that a balloon had been seen near Baptiste Creek Station, on the Great Western the station master informed him a very large balloon had been seen to alight in a marsh, sever miles from that place, Thursday afternoon. To miles from that place, Thursday afternoon. Today, we conversed with a man who was at the
station at that time, saw the balloon descend, and
in company with four others, went in search of it.
He said it was between 2 and 4 o'clock Thursday
afternoon. It was so far off they could not determine whether there was a man on it or not—
It was descending with great rapidity. After
some time spent in fruitless search, it was relinquished. Our informant said he conversed with
an individual who saw the balloon within about
two miles, and said he thought there was an object. two miles, and said he thought there was an obice

from Baptiste Creek Station, and that he, a near neighbor of Mr. Marks', had seen it. They had then heard nothing of the ascent of Mr. Thurston, or the terrible excitement felt in regard to it. He describes it as a very large balloon, and widely rent in three places. We have no doubt this is the missing balloon, and from the man's account of the condition in which it was found, the conviction forces itself upon us, that the balloon reached such an altitude, that the rarified condition of the atmosphere caused it to burst, which leaves little room for speculation as to the fate of Thurston.

Mr. Bannister, Mr. Thurston's companion in his ascent, was in town yesterday, and took the evening train for Baptiste Creek Station. He is confident as'to the identity of the balloon, and sanguine that his friend may be found in the neighborhood in which it struck the earth. That the balloon from Baptiste Creek Station, and that he, a near the wharf. One of them had \$250 of the same stuff, and the other had a \$5 counterfeit bill and two pieces of bogus gold coin. READ WHAT IS SAID OF IT. Scorr, Cortland Co., N. Y., March 21st, 1857. Dr. C. M. Jackson—Dear Sir:—In behalf of the afflicted, I pen a few lines to you. I have suffered and doctored myself, and know how to pity those in a like condition. Until I commenced taking your Bitters last summer, I was not able to do any thing, or even to sit up any considerable length of time. Before I had taken the first botlength of time. Before I had taken the first bottle I felt like a new man, and now, after having continued the use of them a short time, in the worst season of the year, I am able to labor hard every day. To say the least, I think I have received more benefit from the Bitters than all other medicines I have taken. I have not only used your Bitters myself, but have given bottles and parts of bottles to those complaining of Dyspepsia and Liver Complaint, and in every case, they tell me they have taken no medicine so beneficial as the Bitters. Respectfully yours the Bitters.

AGUE AND FEVER, OR CHILLS AND FEVER,

THE attention of dealers in Drugs and Medicines, and persons afflicted with Chills and Fever, or Ague and Fever, is respectfully invited to this celebrared medicine, which has justly obtained a high reputation throughout the country, and for many years has maintained its superiority over all other remedies, as a safe, certain, speedy, and permanent cure for Chilis and Fever, or Ague and Fever.

The public may rely upon the fact that it is entirely vegetable in its composition, and made from the best, purest, carefully selected reliable articles, and is always prepared by the proprietor in person, and, therefore, he can warrant it uniform in quality.

Ohilis and Fever, or Ague and Fever, whether of short or long standing, if the directions were strictly followed and carried out.

This medicine has become a staple remedy, and for years has been extensively used throughout the States of Kentucky, Tennessee, Alabama, Mississippi, Louisiana, Texas, Arkansas, Missouri, Illinois, Iowa, Wisconsin, Ohio, Indiana, Nebraska, Pennsylvania, Michigan, and California, and more lately in Kansas Territory, and has permanently cured near 2,000,000 of cases in all its varied forms and conditions, many of which were from one to three years' standina, and had resisted all the usual remedies known in the country, and in no case did it fail to make a perfect and permanent cure where the directions were properly followed. Such its invariable success that it has gair ele the confidence, favor, and patronage of a large number of respectable practitioners of medicine throughout the country, who prescribe and administer it in preference to Quinine and other remedies.

Persons living in districts of country subject to Chilis and Fever, Ague and Fever, or Billious Fever, would do well to keep a constant supply of this invaluable remedy always on hand.

The proprietor has in his possession a large number of certificates and other testimonials from persons who have used this medicine, as well as from Physicians, Druggists, Apothecaries, and other dealers in medicine, attesting its superior virtues as a curative in Chilis and Fever, or Ague and Fever, and he could obtain many thousands more, or enough to fill a large volume, but does not deem it necessary, as it is already extensively and favorably known to the public generally.

TRINITY BAY, September 23.—We can at last mounce the gratifying intelligence that the Atantic Cable is again n working order. Good electical currents have been passing through the lines the last three days, and though we are not in formed of the transmission of any specific messages it can be stated with accuracy that signals received from Valentia are as perfect as ever. It is hoped that the cable will be ready for business in a few weeks at farthest. STEAMSHIP BURNED.

Halifax, Sept. 23.—The ship Rosentreath, arrived here, reports having passed Sept. 15, in lat. 45.12 and lon. 41.48, a large red bottom steamer on fire. She was evidently American built. A ship was alongside. Afterwards the the captain of the Rosentreath halled the ship and was answered that there was nobody on board the steamer, and they could not learn the name of the burning vessel. The steamer City of Baltimore left New York on the 9th, and ought to have been somewhere about that latitude by the 15th. She is red bottomed, but is a screw steamer. The only other steamer from New York likely to be near the spot indicated is the North Star, which sailed on the 11th, but she is copper bottomed.

LATER.—HALIFAX, Spt. 23, P. M.—The Captain

of the Rosentreath knows nohing more than was imparted to him by the Captain of the Arabian. He cannot say whether the burning steamear was of iron or wood, a paddle or screw steamer. Further particulars will probably be obtained on the Arrabian's arrival here, which is hourly expect Congressional Conferees.

Danville, Pa., Sept. 23.—The Democratic Congressional conferees of this District, in session at Wilkesbarre, have not yet succeeded in making nominations. This morning they commenced bal-loting with the same result as before, viz: Mr. Little receiving 4 votes and Mr. Leidy, the present member, 4. Finally, Mr. Little's name was dropped and the ballots were then 4 for Kendrick B. Wright, of Luzerne county, and 4 for Mr. Leidy. The conferees discussed for an hour this afternoon without balloting, and then adjourned till even-

Destructive Fire.

New York, Sept. 23.—The works of the Empire Stone Dressing Company were destroyed by fire this evening, together with a saw mill on the premises and a large stock of dressed and undressed lumber. The premises occupied the whole square, bounded by 29th and 30th streets, and 1st avenue on East River, and were covered with buildings, lumber, and other stock. The fire commenced at 6 o'clock, and was burning fiercely at 10. All the buildings are destroyed. fiercely at 10. All the buildings are destroyed. The loss will be heavy.

From Washington. Washington, Sept. 20.—Judge Bowlin has left or Mssouri, but will return here in about ten days to receive his final instructions. His ap-

intment has been hailed with satisfaction roughout the country. The report that Mr. Appleton contemplates re ring his present office of Assistant Secretary State, is a contemptible "roorback." He has not thought of such a thing, nor could the Ad ministration afford to lose his valuable services at the head of the Consular Bureau.

The Paraguay expedition is rapidly drawing to ompletion, and too much credit cannot be reded to Secretary Toucey for the energy dis played in fitting it out. A rumor was current or the streets to-day, that Paraguay had dispatched a commissioner to the United States, who was now quarantined at Havana. The State Depart-ment has received no intimation of the kind. No one has been named yet for the Spanish

Mission.

Secretary Cobb received a dispatch to-day from the Collector, announcing the election of Bradbubury, Demorat, to Congress from Maine. How Bogus Coin is Made .- The art of making

bogus coin has nearly reached perfection, and some of the specimens of American halves and quarters exhibited of late are so good an imitation of the genuine that it requires more than a casual glance to detect the fraud. One who un derstands the business informs us that the ma terial from which the coin is manufactured, and which forms so perfect an imitation of the genuine as to require a practical eye to detect the dif as to require a practical eye to detect the dif-ference, is composed of pure grain tin and nickel, the latter ingredient serving to harden and give the ringing sound. The molds are shaped like bullet molds, with two parts that open and shut together like shears. At one extremity a mold is made, composed of plaster of Paris in a plastic state, of sufficient breadth to admit the insertion of several genuine coin, which are placed between the two sides and shut together. After the plaster of Paris has sufficiently hardened, the mould is opened, leaving both sides of the coin distinctly impressed on the two arms of the mould. The melted composition is then true in the color melted composition is then run in through an orifice, and, after cooling, is taken out and galvanized. The cost of grain tin, one of the ingredients, is fifty cents per pound, and making the cost of bogus coin about lifteen cents on the dollar.—Philadelphia News.

SLAVEHOLDERS' MEETING.—Recently the slave-holders of Worcester county, Md., held a large meeting, and recommended that a general con-vention of all the slaveholders of the Eastern Shore be held at Cambridge on the third of No-Shore be held at Cambridge on the third of November, to adopt measures to protect their property. The meeting referred to passed resolutions urging the State Legislature to instruct our Senators and request our Representatives in Congress to present to the General Government the necessity of a rigid enforcement of the fugitive slave law, or the payment of the full value of runaway slaves, and also that the Legislature, as its next session, be requested to appoint agents to ferret out and arrest runaway slaves, said agents to be allowed a liberal bounty for each slave captured by them.

PLAY AT WIESBADEN.—The bank at the Cursual of Wiesbaden was broken last week by a Prussian gentleman. In less than half an hour the bank encountered two heavy series, which, being backed with spirit, resulted in a loss to the establishment of 250,000f. The Prussian played the highest stakes (8,500f.) authorized by the bank, and his example was followed by other players. This success will doubtless afford immense consolation to those whose hard cash had contributed to the accumulation of the quarter of a million thus rapidly swept away.

a decided cure.

This is a purely vegetable compound, prepared on scricity scientific principles after the manner of the celebrated Holland Professor, Borhave. Because of its great success in most of the European States, its introduction into the United States was intended more especially for those of our fatherland scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it to the American public, knowing that its truly wonderful medicinal virtues must be acknowledged.

It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Gen-

constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way directly to the seat of life, thrilling and quickening every nerve raising up the drooping spirit, and, in fact, infusing new health and vigor in the system.

NOTICE—Whoever expects to find this a beverage will be disappointed; but to the sick, weak and low spirited, it will prove a greatful aromatic cordial, possessed of singular remedial properties.

The great popularity of this delightful Aroma has in duced many imitations, which the public should guard against purchasing. Be not persuaded to buy anything else until you have given Berhave's Holland Bitters : fair trial. One bottle will convince how infinitely supe rior it is to all these imitations.

A GOOD SEWING MACHINE.

A GOOD SEWING MACHINE at a low price has long been a desideratum, and is now attained in the Nettleton & Raymond Patent. This is a two-thread Machine of remarkably simple construction, and does the same work as the \$100 Machines, yet it is offered at the low price of

The stitch is the best made by machinery, and it is superior to the best hand sewing. It is elastic, and therefore not liable to break by any strain in washing or otherwise. Every fourth stitch may be cut and the sewing will still hold. The machine sews from two common spools, and for speed is not surpassed. For sale by

PRIVATE MEDICAL DISPENSARY. R. GATES has the pleasure of announcing to the public that he has taken the office formerly occupied by Dr. KING, and permanently located in Louisville, Ky., where he would call the attention of all those afflicted with diseases of a private or sondidential nature, to the new method of treatment as practiced in the English and French hospitals. Having for several years made this class of diseases a SPECIALITY, with the knowledge he has of them, warrants him in saying that there is no form of symptoms which they as-

ing that there is no form of symptoms which they as-ame that is without a quick and permanent cure. Dr. A.'s mode of treating these diseases is entirely new, hav-ing never been adopted by any other Physician in this 3.'s mode of treating these diseases is entirely new, having never been adopted by any other Physician in this country.

YOUNG MEN—Who, by indulging in solitary habits, have contracted that mind-harrowing and body-destroying disease, seminal weakness, which leads to the most alarming and fatal consequences, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never falls of effecting a quick and radical cure.

TO THE LADIES—Dr. G. is agent for M. La Groux's French Preventive Powders, by which those who, from any cause, deem it necessary to avoid conception, can do so, without incurring danger to health or constitution; price \$2. Also, agent for Madame Capraual's Female Monthly Pills, a safe and effectual remedy for Irregularities, obstructions, &c.; price \$1. Caution! These Pills should not be taken during Pregnancy, as they are sure to produce miscarriage. The Pills and Powders seat by mail to any part of the country.

Persons at a distance may be cured at home by addressing a letter, stating case, symptoms, length of time the disease has continued, and have medicine forwarded free from damage or curiosity, to any part of the country, with full and plain directions for use.

Letters asking advices, also orders for pills or powders, must contain a postage stamp.

Consultation may be held from 8 a. m. to 9 p. m., at his fine, northeast corner of Third and Market srteets.—rivate entrance on Third street, Louisville, Ky.

ON MANHOOD, AND ITS
PREMATURE DECLINE.—Just published, grails, the 20th Thousand:
A few Words on the Rational Treatment, without Medicine, of Spermatorrhea or Local Weakness, Nocturnal Emissions, Genital and Nervous Deblity, Impotency, and Impediments to Marriage generally, by
B. DE LANEY, M. D.
The important fact that the many alarming complaints, originating in the imprudence and solitude of youth, may be easily removed without Medicine, is in this small tract, clearly demonstrated; and the entirely new and highly successful treatment, as adopted by the Author, fully explained, by means of which every one is enabled to cure HIMSELP perfectly and at the least possible cost, thereby avoiding all the advertised nostrums of the day.

Sent to any address, gratis and post free in a caled envelope, by remitting (post paid) two postage elamps to Dr. B. DE LANEY, 88 East Slat street, New York City ap29 d&wtf
